Our Nominee for the Assembly.

The nomination of Mr. Graham by the

Republican assembly caucus last night in

the city gives very general satisfaction to

the Republicans. Mr. Graham is an energetic

and thorough republican, is a good

speaker, has had considerable legislative

experience, and will make an active member

of the legislature. We feel quite sure, with

his qualifications, that the interests of

Janesville, and of the state, could not be

placed in better hands, and we look with

confidence to the people of the city, to confirm

the excellent nomination made by the

convention. The caucus was, perhaps, as

large as any assembly convention ever held

in the city, and its proceedings were characterized

by entire harmony and good feeling.

Judging from this fact and from the

expression of public sentiment since the

nomination, we anticipate the election of

Mr. Graham by a handsome majority.

The Press.—The democratic papers

have been denying the genuineness of the

following extract from a speech of Mr.

Douglas in Congress:

The father may bind his son during his

minority, but the moment he attains his

majority his fetters are severed, and he is

free to regulate his own conduct. So with

the territories: they are subject to the

jurisdiction and control of congress during

their infancy—their minority; but when

they attain their majority and obtain ad-

mission into the Union, they are free from

all restraints and restrictions, except such

as the constitution of the United States

has imposed upon each and all of the

states.

The passage will be found in Mr. Doug-

las' speech of February 23d, 1845, on the

bills for the admission of Iowa and Florida

into the Union, as printed in the fourteenth

volume of the Congressional Globe, page

284.

Bishop Scott, who presides over the

Winconsin Conference, which is now in

session in this city, was converted in a

negro's house during a meeting conducted

by the ladies. Thus says the Bishop: but

isn't the announcement a little singular just

at this time, and as it appears in the

Gazette.—Daily Democrat.

We don't see any thing singular about it.

Perhaps you think that a negro ought not

to have a house, but should live like a beast

in the forest where your party would drive

him. Perhaps you think a negro has "no

rights which a white man is bound to re-

spect"—no right to a house, family, reli-

gion or friends. Perhaps you think it de-

gratory to a white man to become convert-

ed in the home of a black man, and that

ladies are degraded by holding a religious

meeting under the roof of one of this down-

trodden race. We do not know what you

think about it, but there is a covert sneer

for some one in the above paragraph, which

would appear more manly if made in a

straight-forward manner.

THE BELL-EVERETS IN PENNSYLVANIA.—

State Fair.

The fair closed yesterday. The exami-  
nation we were able to give it, after all the  
entries were made, leads us to the conclu-  
sion that it was inferior, as a whole, to the  
fair two years ago. Some of the depart-  
ments were equal or superior to the display  
then, while in others there was an obvious  
deficiency. The collection of fruit was very  
large and has never been equalled; the vege-  
table and farm product department was  
full and the specimens very fine; the stock  
on exhibition was as good as usual; other-  
wise, the present exhibition was decidedly  
inferior to former ones.

Thursday the attendance was large; from  
15,000 to 20,000 were estimated to be present.  
Proceeding and following Thursday,  
the numbers in attendance were not equal  
to two years ago.

As usual, the ladies equestrian match  
was an attractive feature. Seven entries  
were made: Mrs. Carrie Humes, of Sylvest-  
er, Green co.; Mrs. Green, of Trenton,  
Dodge co.; Miss Nancy Cronk, of Janes-  
ville; Mrs. McCullom, of Trenton, Dodge  
co.; Miss Thompson, of Oregon, Dane co.;  
Miss Anna Comstock, of Rock, Rock co.;  
Miss Dennison, of Madison. Mrs. Humes  
rode without a saddle. The first premium  
was awarded to Miss Comstock, the 2d to  
Miss Cronk, the 3d to Miss Dennison and the  
4th to Mrs. Green. The committee recom-  
mended the award of premiums equal to the  
4th to each of the other contestants.

The trials of the firemen were for two  
sets of premiums, one offered by the agri-  
cultural society and the other by the citi-  
zens of Madison. Only four engine com-  
panies entered, the two Madison companies  
Water Witch No. 2 of this city, and Ocean  
No. 5 of Milwaukee. The first trial, Thurs-  
day, was on quantity for the society's pre-  
miums, the engines playing in a tank, and  
resulted as follows:

Ocean, Milwaukee, 2ft 6in.  
Water Witch, Janesville, 2ft 2in.  
Mendota, Madison, 2ft 4 1/2 in.  
Madison, Madison, 2ft 5 1/2 in.

Friday, the 2d trial for the citizens' prizes  
resulted in the triumph of Water Witch of  
this city on quantity, in the tank, and Men-  
dota No. 1 of Madison, on distance in the  
first and second class machines. Rescue  
No. 2 of Milwaukee, received the premium  
offered to hook and ladder companies.

There were very few entries from Rock  
county, but the competitors from the county  
were very generally successful. If the usual  
interest in the fair had been felt by the  
people of the county, there would have  
been a large addition to all the leading de-  
partments, and a corresponding number  
of premiums sent into the county, if merit  
alone decided the awards. A Hyatt Smith  
received the first premium on matched horses.

As usual, and as, perhaps, is inevitable,  
there were several causes of dissatisfaction.  
One of the most frequent complaints arose  
from a new system of tickets for admission.  
Except to life members, nothing but single  
admissions were issued, and this change  
increased in a majority of cases the cost of  
admission. Exhibitors were allowed six  
tickets for each entry; by this arrangement,  
after paying \$1 for the entry, tickets to the  
amount of \$1.50 were received. One indi-  
vidual, to avail himself of the benefit of  
this arrangement, entered a scrap book,  
and entries of other articles of an unimpor-  
tant character were made for the same pur-  
pose. We heard of one individual who  
received fifty tickets on his entries which  
cost him \$10, and thereby received 20 tick-  
ets over the cost of the entries. Under the  
operation of this rule the number of entries  
were increased, without adding to the real  
value or interest of the fair.

One of the most significant features of  
this fair was afforded by the Madison press.  
It was hard work for our brethren of the  
press to keep up appearances. Their task  
was very much like our own on the national  
horse show here—making the most of  
what was good, and slipping over the de-  
fects as easily as possible.

Thursday evening the annual election of  
officers of the society took place at the  
office of the Secretary of State in the capitol,  
preceded by a stormy scene in the agricul-  
tural rooms. The officers were generally  
re-elected, the closest contest being on the  
treasurer, and the first ballot resulted in a  
tie between David Atwood, editor of the  
Madison Journal, and J. V. Robbins, the  
great farmer near Madison. Mr. Atwood,  
however, was re-elected on the 2d ballot by  
a small majority. An effort to displace  
Mr. Hoyt as secretary was unsuccessful.  
Mr. J. D. Ruggles his principal competitor,  
receiving 19 votes. C. L. Martin, of this  
city was placed upon the executive com-  
mittee, and is the only officer from this  
county.

PENNSYLVANIA.—The Philadelphia North  
American and Gazette, one of the best pos-  
sible, most cautious and thoroughly conser-  
vative journals in the United States, speak-  
ing of the result of the contest in Pennsyl-  
vania, says:

Our information from all parts of the in-  
terior is as complete as practicable, and ex-  
tends in detail to most of the counties. The  
organization is better than for years past,  
and the enthusiasm inspired by a good  
cause, and the certainty of coming victory,  
has no parallel but that of 1840. And in  
the northwest and western portions of the  
state, the feeling even exceeds that memora-  
ble period. Our confidence in the result is  
confirmed by the intelligence from every  
quarter, and we have the best reason to  
believe that Mr. Curtis's majority will  
range from 15,000 to 20,000, and may far  
exceed it. His election is beyond doubt by  
a large majority, the extent of which may  
be determined by various contingencies.—  
None of them can reduce his strength, and  
some of them may augment it materially.

MEETING FOR THE SOUTH.—A Washing-  
ton correspondent says: Government has  
ordered 17,000 stands of arms to Fort  
Moultrie, South Carolina. As there are not  
needed more than 300 men to garrison the  
defences of Charleston, the order is viewed  
with little suspicion by the cool-headed here  
and elsewhere.

"Well, you've been out to look at Texas;  
did you see any thing of friend —"

"Yes—gone deranged."

"Gone deranged? Really crazy? What  
does he do?"

"Yes; indeed; he don't know his neigh-  
bor's hogs from his own."

State Firemen's Tournament.

The tournament at Madison on Thursday  
and Friday was the occasion of a great deal  
of excitement, although the number of com-  
panies on the ground was less than at any  
previous fair since firemen's tournaments  
have been made an object of attraction.  
Only two engines from abroad were in at-  
tendance—"Ocean" No. 5, of Milwaukee,  
and "Water Witch" No. 2, of Janesville,—  
the former a first class and the latter a sec-  
ond class engine. "Ocean" No. 5, having  
no competitor, demanded the first prize for  
first class machines, and "Water Witch" No.  
2, the first prize for the second class  
for the same reason. These demands were  
made after it was declared by the commit-  
tee of arrangements that upon the first day  
the Madison engines should not play, but  
leave the prizes open for competition to vis-  
iting companies, and the more strenuously  
so since the committee decided, after learn-  
ing that but two machines from abroad  
would be present, that the prizes for this  
day should be withdrawn, and played for at  
a future time. In order that the intention  
of the committee should be carried out, the  
firemen of the different companies were  
called together, and it was decided that the  
Madison machines should play.

This arranged, the foremen drew lots for  
their turns to play, resulting in "Water  
Witch" No. 2, playing first, "Ocean" No. 5,  
second, "Mendota" No. 1, third, and "Mad-  
ison" No. 2, fourth. The trial was on  
quantity, and resulted in "Ocean" No. 5  
taking the first and "Madison" No. 2 the  
second. The tank played into was a larger  
barrel, estimated to hold 33 barrels being  
measured, (23 gallons to the barrel.) "Wa-  
ter Witch" put 26 1/2 inches into this tank.  
"Ocean" 30 1/2, "Mendota" 28 13 1/2, "Mad-  
ison" 29 1 1/2. (Our reporter has the dimen-  
sions of the tank and will, in a day or two,  
give us the number of gallons contained in  
these amounts.)

On Friday, the second day, the trial was  
for first and second class engines on dis-  
tance, and second class engines on quantity.  
For the first class prize on distance "Wa-  
ter Witch," "Ocean" and "Mendota" were  
entered. "Water Witch" played a distance  
of 166 feet and 8 inches, on the third trial,  
bursting her hose on the first and second  
trials. "Ocean" played a distance of 179  
feet—burst hose. "Mendota" played  
182 feet and 4 inches on her trial—hose  
bursting each time. This latter machine  
had played but about three seconds when  
her stream had attained this distance—her  
hose burst, and the judges requested them  
not to play again, as they had distanced  
everything else. Prize awarded to "Men-  
dota."

The second class on distance was then  
called—"Water Witch," "Mendota" and  
"Madison" entering for competition.—  
"Water Witch" burst her hose three times,  
and was ruled out; she gained, however, a  
stream of 170 feet and 9 inches, upon the  
last trial, just at the moment of the hose  
bursting. "Mendota" burst her hose on  
the first trial,—on the second her stream  
reached a distance of 189 feet and 6 1/2 inches,  
although badly broken by a squall of wind.  
"Madison" played a distance of 162 feet  
and 6 inches, without bursting hose. Prize  
awarded to "Mendota."

The only second class machines that  
played on quantity the second day, were  
"Water Witch" and "Madison." The  
same tank was used as on the day before,  
and "Water Witch" played 30 inches into it,  
and "Madison" 28 1/2. Prize awarded to  
"Water Witch."

During this latter trial, (it being quite  
late) the race between the hook and ladder  
companies came off. "Rescue" No. 2, of  
Milwaukee and "Capitol" No. 1 of Mad-  
ison being the only trucks on the ground.—  
"Rescue" ran 29 men, "Capitol" 12.—  
Prize awarded to "Rescue"—time 2:32.  
"Capitol" made time, 2:48. Distance half  
a mile. No hose companies present ex-  
cept "Liberty" No. 2 of Milwaukee, who,  
out of respect to their badge of mourning  
for members lost in the Lady Elgin, de-  
clined running.

It is but justice to all concerned to say  
that the trial of engines did not prove what  
was anticipated. The result plainly dem-  
onstrated that the merits of the machines  
were not brought out.

We have occupied much room now, and  
were it not for that our reporter would like  
to give many interesting incidents connect-  
ed with this tournament, together with a  
report of the proceedings of the meeting of  
delegates for the organization of a state as-  
sociation.

NEAPOLITAN EXILES OF 1859 AND 1860.  
—It is just about a year ago since a ship  
load of distinguished exiles left Naples—  
one of them an Ex-Minister of state, and  
all of them men who had held prominent  
positions. They had already been eight  
years in a prison to which they had been  
condemned without a trial, and without be-  
ing allowed witnesses to defend them.  
This prison was a subterranean cavern,  
two hundred feet below the level of the  
sea, without a ray of light, or a breath  
of pure air, so damp and noisome that the  
clothes rotted on their backs. It had for-  
merly been a cemetery, and was still ter-  
rified by dead men's bones and the vermin  
that prey on corpses. This horrible con-  
finement killed some, destroyed the health of  
others, and shattered the health of all.  
It was considered an act of royal mercy  
when the feeble survivors were released from  
it, by being banished from their native soil  
for life.

We advert to this well remembered event  
of last year, because it points the moral of  
another banishment from Naples, occurring  
now, and the ship load of exiles is about  
to sail from the same coast. This time it  
consists of the King and Court who thus  
tortured their subjects for no crime but  
that of political opinion. Retribution has  
overtaken them at last, and they follow in  
the path where they have sent so many  
victims. But there is a difference in their  
future. The poor, broken-down patriots  
had the sympathies of the civilized world;  
the rich and royal party have none but  
those of kindred despots. The patriots  
were sure of a welcome in any Christian  
land; the royalists can find but two safe  
places of refuge in Europe. The banish-  
ment of the patriots lasted but a twelve  
month, and are now returning to their  
land; the banishment of the royalists  
lasts till the last of doomsday.

A canary bird, eighteen years old, died

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,  
Office in Union Passenger Depot.

CINCINNATI, Sept. 29.  
Baron Renfrew and suite arrived at one  
o'clock this morning. In consequence of a  
freight train having run off the track they  
were delayed three hours. They were ac-  
companied by Mayor Bishop, Judge Stone,  
Jas. Sibley and the rest of the chamber of  
commerce, John Forrester and rest of city  
council, Rufus King, president of the school  
board, and P. B. Boyer, who met the train  
at Cochrane and tendered the hospitalities  
of the city to the guests. In consequence  
of the lateness of the hour but few persons  
were at the depot when the train arrived.  
Lord Renfrew and party took carriages and  
proceeded to the Burnett House, where they  
occupy apartments on the 2d floor of the  
south-eastern wing.

The Prince will leave the Barnett to-day  
at 11 o'clock and escorted by the mayor  
and other members of the committee will  
make an excursion about the city and  
through Mount Auburn and Clifton. This  
afternoon there will be a great display of  
the whole fire department in 5th street. To-  
night the Prince attends the ball at Pike's  
opera house.

New York, Sept. 29.  
The steamship Kangaroo for Liverpool  
took 200 passengers and \$117,000 in specie.  
The Bremen for Southampton took 150 pas-  
sengers and \$500,000 in specie.

Southwick Junction, Sept. 29.  
The railroad bridge over the Saticum falls  
river on the Great Falls and Conway road  
fell this A. M., while a train was passing  
over it. The engine and 4 platform cars  
fell with the bridge. The brakeman pulled  
the pin connecting the freight with the pas-  
senger cars just in time to save the latter  
from being precipitated into the river. The  
engineer saved his life by jumping from the  
engine to the abutment of the bridge no-  
body was hurt.

MILWAUKEE, Sept. 29.  
Flour unchanged nominally but it is al-  
most impossible to get sales. Wheat—  
this has been the quietest day of the month  
for this market and sales made are scarcely  
of sufficient importance to establish quotat-  
ions. Shippers have entirely withdrawn  
from the market, being unable to pay rail-  
ing prices without meeting an actual loss.  
There has not been a cargo of wheat ship-  
ped east this month which did not pay a  
loss to the shipper of from one to two thou-  
sand dollars. There is no demand whatever  
for shipping grades above \$6.85 in store  
and 91c for extra. At the close buyers and  
sellers were apart, the latter offering pretty  
freely at 87a89 for spring in store.

ALL SORTS OF PARAGRAPHS.

There are fifty-seven cities in the world  
which contain from 100,000 to 200,000 in-  
habitants, twenty-three from 200,000 to 500-  
000, and twelve which contain above 500-  
000.

An agent from New Brunswick to Eng-  
land to purchase neat stock has returned  
without bringing any, on account of the  
prevalence of pleuro-pneumonia among the  
cattle there. He says the existence of dis-  
ease is kept secret as far as possible, but he  
found abundant evidence of it.

The squirrels in the public parks of Phila-  
delphia have been presented as a nuisance  
by the grand jury. They destroy the birds  
which kill the worms which kill the trees.  
The treasure said to have been found by  
Garibaldi in the royal bank at Naples (89-  
060,000 lire) amounts to \$14,400,000 of our  
money.

An agent of Jeffard, the president of  
the negro republic of Hayti, was in Mobile,  
Ala., on the 18th inst., for the purpose of  
obtaining emigrants among the free color-  
ed population, but as free negroes are pro-  
hibited from entering the state of Alabama,  
the colored ambassador was obliged to re-  
tire.

DEAD AGAIN.—A telegram last night  
from New Orleans says: "The British  
steamer Gladiolus is coming up with the  
remnant of Walker's party. Walker was  
shot on the 12th. Renfrew was still a pris-  
oner."

Jacob Blinn, one of the men who has  
been doing a profitable business in the sale  
of free negroes, from Baltimore, has been  
arrested at Philadelphia, and taken back  
on a requisition. There are now three  
white men under arrest at Baltimore for  
this offense.

Capt. Ericsson's admirable invention  
for setting in motion sewing machines, with-  
out the aid of a treadle, is meeting with  
much favor. Compressed air furnishes  
the power used.

The saddest New York Commercial Ad-  
vertiser is responsible for the following un-  
pleasant anecdote on a Baron subject:  
Why was the suicide of Detroit, in  
1812, like the Prince's reception on Thurs-  
day?

Because in both cases the *Hubb* of De-  
troit was taken by the British. "Patent  
applied for."

THE EUROPEAN HARVEST.—The Echo  
Agricole gives the following short summary  
of the accounts received from the countries  
in the south of Europe, where the harvest  
is terminated:

In Italy it is only in the north that the  
crop of wheat is satisfactory; in Lombardy  
it is middling, and in the provinces of Mo-  
dena, Parma and Bologna indifferent. In  
Venetia the results are better, in various loca-  
tions; at Naples the crop will be less than  
was at first expected. In Spain the harvest  
in the two Castiles and La Mancha has  
been satisfactory; but in Andalusia the  
crop has not equalled expectation. Ac-  
counts from Odessa and the whole Polish  
provinces give reason to hope that the crop  
of wheat will be excellent.

A planter near Baltimore, and the owner  
of fifty slaves, published a letter in the  
Baltimore Patriot, in which he gives statistics  
and advances arguments to prove that while  
slavery may have elevated the negro race  
to a certain degree, it has demoralized the  
white race, and that the institution may be kept  
from the territories.

THE UNHAPPY DEED OF SYRIA.—The  
Boston Traveler's correspondent writes that  
more than ten thousand human bodies still  
lie upon the sides of Mount Hermon, in full  
view from the Sea of Galilee and the Med-  
iterranean, upon the plains of Sidon, the  
ancient Phenicia, blackening in the sun,  
and their blood still cries out to heaven for  
vengeance. It is an Oriental custom to  
leave the murdered dead unburied until jus-  
tice has been satisfied, and although in  
Syria the effect of the climate upon a dead  
body requires its burial within twenty-four  
hours after the departure of the spirit from  
its earthly tenement, these bodies have re-  
mained unburied and in a complete

### Wisconsin Conference.

As announced in the last issue, Rev. E. Youm of the West Wisconsin Conference occupied the pulpit, giving the audience a good, plain, practical sermon from James 5, 20. In the evening Rev. Wm. H. Thompson, of the same conference, addressed a crowded house from John 6, 27, subject—Christ the seal of God. The sermon was clear, having some powerful appeals to the heart, still it was a little too long—and we thought that the watch hands of one of the Rev.'s must have caught for he detained us with quite an exhortation.

Very much of the conference business was done this afternoon by committees, and will be reported in good time.

The religious exercises of opening the conference this morning were conducted by Rev. C. G. Lathrop. A class of fair size was elected to order the orders. Several candidates were elected to local deacon orders. Preaching this afternoon at 2 P. M. by Rev. H. Coleman, at 7 by Rev. A. C. Huntley.

### Public Services for the Sabbath.

**M. E. Church.**—Love Feast, 8:30 A. M. Sermon by Bishop Scott and ordination of deacons at 10:30 A. M. Sermon by Rev. L. Hitechock of Cincinnati, and ordination of elders at 3 P. M. Sermon at 7 P. M. by Rev. Dr. W. L. Harris, one of the secretaries of the Missionary Society of the M. E. Church.

**Presbyterian Church.**—Morning sermon, Rev. C. Scammon. Evening, Rev. Dr. H. Bannister.

**Whiteville.**—Rev. T. O. Hollister.

### WIDE AWAKE ATTENTION!

To-night is the last but one that we have for drill exercise, before appearing at the Great Wide Awake Demonstration at Chicago, on the 2d of October. It is feared, that too many will fail in going through with all the maneuvers with precision. And it is quite certain that no one will perform them as they well.

Let every Wide Awake attend this evening, fully equipped for parade. If any one who cannot go to Chicago, has a uniform, let him bring it to the hall this evening, as there are numbers who will go, that are not yet supplied.

It is not enough that each Wide Awake himself is on hand, but let each one use his utmost endeavors to increase the size of the company.

A. B. McLEAN, Captain.

### City Assembly District Convention.

The republican electors of the assembly district composed of the city of Janesville, met at the Court Room, at 7 o'clock, on Friday evening, Sept. 23, for the purpose of nominating a candidate to represent said district in the assembly. H. N. Comstock was chosen Chairman, and Hiram Bowen, Secretary.

The following gentlemen were appointed tellers by the chair:—J. R. Bennett, S. J. M. Putnam, S. Ford, Jr.

A formal ballot was then ordered, which resulted as follows: Alexander Graham received 222 votes; and A. C. Bates 99 votes. ALEXANDER GRAHAM, having received a majority of all the votes cast, was unanimously declared the nominee of the convention.

Mr. Graham came forward and in a brief speech, thanked the convention for the nomination.

The following assembly district committee for the ensuing year was appointed by the chair:—N. F. Lund, George A. Young and S. Ford, Jr.

The convention then adjourned, sine die.

H. N. COMSTOCK, Chm.

Hiram Bowen, Sec'y.

**Prize Trumpet.**—The trumpet awarded to engine company No. 2 of this city may be seen in the window of Spaulding's jewelry store. It is a beautiful article, and has been well won and well bestowed. By a reference to our report of the trial, it will be seen that the Water Witch boys, with a 9 1/2 inch cylinder, put nearly as much water into the tank at the second trial as the Ocean company of Milwaukee with a 11 1/2 inch cylinder, the difference being only one-eighth of an inch in the tank.

The company naturally felt well over their triumph, and our citizens generally regard it as a Janesville victory. With a fair chance and fair play, Water Witch is not to be beaten.

**Trinity Church.**—The bell in this church will not be rung for religious services tomorrow. Services will be held at 10 1/2 A. M., and 7 1/2 P. M. Sunday School, 9 A. M. as usual.

The attention of the community is respectfully called to the following features in connection with this Company:

First—By insuring in this company, the advantages of a Mutual Insurance Company are obtained, with the additional advantage afforded in the security given by an ample and reliable Cash Capital—a feature not presented by ordinary Mutual Fire Insurance Companies. The dividends to customers, already declared, are as follows:

1st Dividend to Policy-Holders, 1857, 30 1/2 pct  
2d " " " " 1858, 50 " "  
3d " " " " 1859, 50 " "  
4th " " " " 1860, 45 " "

Second—The security given, which is already large, will constantly increase with each year of successful operation. This is exhibited clearly in the following statement, showing the position of the company in each year since the new system was adopted.

Only 1866 Net Assets of the Company: \$270,569 48

Our Nominee for the Assembly.

The nomination of Mr. Graham by the republican assembly caucus last night in this city gives very general satisfaction to the republicans. Mr. Graham is an energetic and thorough republican, is a good speaker, has had considerable legislative experience, and will make an active member of the legislature. We feel quite sure, with his qualifications, that the interests of Janesville, and of the state, could not be placed in better hands, and we look with confidence to the people of the city, to confirm the excellent nomination made by the convention. The caucus was, perhaps, as large as any assembly convention ever held in the city, and its proceedings were characterized by entire harmony and good feeling. Judging from this fact and from the expression of public sentiment since the nomination, we anticipate the election of Mr. Graham by a handsome majority.

The pastor.—The democratic papers have been denying the genuineness of the following extract from a speech of Mr. Douglas in Congress:

The father may bind his son during his minority, but the moment he attains his majority his fetters are severed, and he is free to regulate his own conduct. So with the territories: they are subject to the jurisdiction and control of congress during their infancy—their minority; but when they attain their majority and obtain admission into the Union, they are free from all restraints and restrictions, except such as the constitution of the United States has imposed upon each and all of the states.

The passage will be found in Mr. Douglas' speech of February 23d, 1846, on the bills for the admission of Iowa and Florida into the Union, as printed in the fourteenth volume of the Congressional Globe, page 284.

Bishop Scott, who presides over the Wisconsin Conference, which is now in session in this city, was converted in a negro's home during the late war, conducted by the ladies. Thus says the Bishop: "I don't like the announcement a little singular just at this time, and as it appears in the Gazette."—Daily Democrat.

We don't see any thing singular about it. Perhaps you think that a negro ought not to have a house, but should live like a beast in the forest where your party would drive him. Perhaps you think a negro has "no rights which a white man is bound to respect"—no right to a house, family, religion or friends. Perhaps you think it degrading to a white man to become converted in the home of a black man, and that ladies are degraded by holding a religious meeting under the roof of one of this down-trodden race. We do not know what you think about it, but there is a covert sneer for some one in the above paragraph, which would appear more manly if made in a straight-forward manner.

The Bell-Everetts in Pennsylvania.—The Bell-Everett state committee in Pennsylvania, which met at Harrisburg, yesterday, nominated an electoral ticket, and passed a resolution that it is not expedient to nominate a candidate for governor; and they also recommended the holding of a union convention of all citizens of Pennsylvania opposed to the republican organization at as early a day after the October election as practicable. This indicates that the Bell-Everett party in that state are ready to make any kind of a coalition with other parties which shall defeat the republicans. The difficulty about it is that although the leaders may coalesce the people will not, and thus all efforts of that kind will be useless.

Three thousand hoopskirts are made weekly in Meriden, Connecticut.

State Fair.

The fair closed yesterday. The examination we were able to give it, after all the entries were made, leads us to the conclusion that it was inferior, as a whole, to the fair two years ago. Some of the departments were equal or superior to the display then, while in others there was an obvious deficiency. The collection of fruit was very large and has never been equaled; the vegetable and farm product department was full and the specimens very fine; the stock on exhibition was as good as usual; otherwise, the present exhibition was decidedly inferior to former ones.

Thursday the attendance was large; from 15,000 to 20,000 were estimated to be present. Preceding and following Thursday, the numbers in attendance were not equal to two years ago.

As usual, the ladies equestrian match was an attractive feature. Seven entries were made: Mrs. Carrie Humes, of Sylvester, Green co.; Mrs. Green, of Trenton, Dodge co.; Miss Nancy Cronk, of Janesville; Mrs. McCullough, of Trenton, Dodge co.; Miss Thompson, of Oregon, Dane co.; Miss Anna Comstock, of Rock, Rock co.; Mrs. Dennison, of Madison. Mrs. Humes rode without a saddle. The first premium was awarded to Miss Comstock, the 2d to Miss Cronk, the 3d to Miss Dennison and the 4th to Mrs. Green. The committee recommended the award of premiums equal to the 4th to each of the other contestants.

The trials of the firemen were for two sets of premiums, one offered by the agricultural society and the other by the citizens of Madison. Only four engine companies entered, the two Madison companies, Water Witch No. 2 of this city, and Ocean No. 6 of Milwaukee. The first trial, Thursday, was on quantity for the society's premiums, the engines playing into a tank, and resulted as follows:

Ocean, Milwaukee, 2ft 6in.  
Water Witch, Janesville, 2ft 2 1/2 in.  
Mendota, Madison, 2ft 4 1/2 in.  
Madison, Madison, 2ft 5 1/2 in.

Friday, the 2d trial for the citizens' prizes resulted in the triumph of Water Witch of this city on quantity, in the tank, and Mendota No. 1 of Madison, on distance in the first and second class machines. Rescue No. 2 of Milwaukee, received the premium offered to hook and ladder companies.

There were very few entries from Rock county, but the competitors from the county were very generally successful. If the usual interest in the fair had been felt by the people of the county, there would have been a large addition to all the leading departments, and a corresponding number of premiums sent into the county, if merit alone decided the awards. A. Hyatt Smith received the first premium on matched horses.

As usual, and as, perhaps, is inevitable, there were several causes of dissatisfaction. One of the most frequent complaints arose from a new system of tickets for admission. Except to life members, nothing but single admissions were issued, and this change increased in a majority of cases the cost of admission. Exhibitors were allowed six tickets for each entry; by this arrangement, after paying \$1 for the entry, tickets to the amount of \$1.50 were received. One individual, to avail himself of the benefit of this arrangement, entered a scrap book, and entries of other articles of an unimportant character were made for the same purpose. We heard of one individual who received fifty tickets on his entries which cost him \$10, and thereby received 26 tickets over the cost of the entries. Under the operation of this rule the number of entries were increased, without adding to the real value or interest of the fair.

One of the most significant features of this fair was afforded by the Madison press. It was hard work for our brethren of the press to keep up appearances. Their task was very much like our own on the national horse show here—making the most of what was good, and slipping over the defects as easily as possible.

Thursday evening the annual election of officers of the society took place at the office of the Secretary of State in the capitol, preceded by a stormy scene in the agricultural rooms. The officers were generally re-elected, the closest contest being on the treasurer, and the first ballot resulted in a tie between David Atwood, editor of the Madison Journal, and J. V. Robbins, the great farmer near Madison. Mr. Atwood, however, was re-elected on the 2d ballot by a small majority. An effort to displace Mr. Hoyt as secretary was unsuccessful, Mr. J. D. Roggles his principal competitor, receiving 19 votes. C. L. Martin, of this city, was placed upon the executive committee, and is the only officer from this county.

PENNSYLVANIA.—The Philadelphia North American and Gazette, one of the best papers, most cautious and thoroughly conservative journals in the United States, speaking of the result of the contest in Pennsylvania, says:

Our information from all parts of the interior is as complete as practicable, and extends in detail to most of the counties. The organization is better than for years past, as the enthusiasm inspired by a good cause, and the certainty of coming victory has no parallel but that of 1840. And in the northwest and western portions of the state, the feeling even exceeds that memorable period. Our confidence in the result is confirmed by all the intelligence from every quarter, and we have the best reason to believe that Mr. Curtis' majority will range from 15,000 to 20,000, and may far exceed it. His election is beyond doubt by a large majority the extent of which may be determined by various contingencies. None of them can reduce his strength, and some of them may augment it materially.

MUSKETS FOR THE SOUTH.—A Washington correspondent says: Government has ordered 17,000 stands of arms to Fort Moultrie, South Carolina. As there are not needed more than 800 men to garrison the defenses of Charleston, the order is viewed with no little suspicion by the cool-headed here and elsewhere.

"Well, you've been out to look at Texas; did you see any thing of friend —?"  
"Yes—gone deranged."  
"Yes—gone deranged? Really crazy? What does he do?"  
"Yes, indeed; he don't know his neighbor's hogs from his own."

State Firemen's Tournament.

The tournament at Madison on Thursday and Friday was the occasion of a great deal of excitement, although the number of companies on the ground was less than at any previous fair since firemen's tournaments have been made an object of attraction. Only two engines from abroad were in attendance—"Ocean" No. 5, of Milwaukee, and "Water Witch" No. 2, of Janesville, the former a first class and the latter a second class engine. "Ocean" No. 5, having no competitor, demanded the first prize for first class machines, and "Water Witch" No. 2, the first prize for the second class for the same reason. These demands were made after it was declared by the committee of arrangements that upon the first day the Madison engines should not play, but leave the prizes open for competition to visiting companies, and the more strenuously so since the committee decided, after learning that but two machines from abroad would be present, that the prizes for this day should be withdrawn, and played for at a future time. In order that the intention of the committee should be carried out, the firemen of the different companies were called together, and it was decided that the Madison machines should play.

This arranged, the foremen drew lots for their turns to play, resulting in "Water Witch" No. 2, playing first, "Ocean" No. 5, second, "Mendota" No. 1, third, and "Madison" No. 2, fourth. The trial was on quantity, and resulted in "Ocean" No. 5 taking the first and "Madison" No. 2 the second. The tank played into was a larger bear vat, estimated to hold 33 barrels bear measure, (28 gallons to the barrel). "Water Witch" put 2 1/2 inches into this tank. "Ocean" 3 1/2, "Mendota" 28 1/2 in., "Madison" 29 1/2 in. (Our reporter has the dimensions of the tank and will, in a day or two, give us the number of gallons contained in these amounts.)

On Friday, the second day, the trial was for first and second class engines on distance, and second class engines on quantity. For the first class prize on distance "Water Witch," "Ocean" and "Mendota" were entered. "Water Witch" played a distance of 166 feet and 8 inches, on the third trial, bursting her hose on the first and second trials. "Ocean" played a distance of 179 feet—burst no hose. "Mendota" played 182 feet and 4 inches on her trial—hose bursting each time. This latter machine had played but about three seconds when her stream had attained this distance—her hose burst, and the judges requested them not to play again, as they had distanced everything else. Prize awarded to "Mendota."

"The second class on distance was then called—"Water Witch," "Mendota" and "Madison" entering for competition—"Water Witch" burst her hose three times, and was ruled out; she gained, however, a stream of 170 feet and 9 inches, upon the last trial, just at the moment of the hose bursting. "Mendota" burst her hose on the first trial,—on the second her stream reached a distance of 189 feet and 6 1/2 inches, although badly broken by a squall of wind. "Madison" played a distance of 162 feet and 6 inches, without bursting hose. Prize awarded to "Mendota."

The only second class machines that played on quantity the second day, were "Water Witch" and "Madison." The same tank was used as on the day before, and "Water Witch" played 30 inches into it, and "Madison" 28 1/2. Prize awarded to "Water Witch."

During this latter trial, (it being quite late) the race between the hook and ladder companies came off. "Rescue" No. 2 of Milwaukee and "Capitol" No. 1 of Madison being the only trucks on the ground—"Rescue" ran 29 men, "Capitol" 13—"Prize awarded to "Rescue"—time 2:32. "Capitol" made time, 2:48. Distance half a mile. No hose companies present except "Liberty" No. 2 of Milwaukee, who, out of respect to their badge of mourning for members lost on the Lady Elgin, declined running.

It is but justice to all concerned to say that the trial of engines did not prove what was anticipated. The result plainly demonstrated that the merits of the machines were not brought out.

We have occupied much room now, and were it not for that our reporter would like to give many interesting incidents connected with this tournament, together with a report of the proceedings of the meeting of delegates for the organization of a state association.

NEAPOLITAN EXILES OF 1869 AND 1860.—It is just about a year ago since a ship load of distinguished exiles left Naples—one of them an Ex-Minister of state, and all of them men who had held prominent positions. They had already been eight years in a prison without trial, and without being allowed to produce witnesses in their defense. This prison was a subterranean cavern, two hundred feet below the level of the sea, without a ray of light, or a breath of pure air, so damp and noxious that the clothes rotted on their backs. It had formerly been a cemetery, and was still tenanted by dead men's bones and the vermin that prey on corpses. This horrible confinement killed some, destroyed the reason of others, and shattered the health of all. It was considered an act of royal mercy when the feeble survivors were released from it, by being banished from their native soil for life.

We advert to this well remembered event of last year, because it points the moral of another banishment from Naples, occurring now. Another ship load of exiles is about to sail from the same coast. This time it consists of the King and Court who thus tortured their subjects for no crime but that of political opinion. Banishment has overtaken them at last, and they follow in the path where they have sent so many victims. But there is a difference in their future. The poor, broken-down patriots had the sympathies of the civilized world; the rich and royal party have none but those of kindred despots. The patriots were sure of a welcome in any Christian land; the royalists can find but two safe places of refuge in Europe. The banishment of the patriots lasted but a twelve month, and are now returning to their homes. The banishment of the royalists has fair to last till doomsday.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,  
Office in Union Passenger Depot.

CINCINNATI, Sept. 29.  
Baron Renfrew and suite arrived at one o'clock this morning. In consequence of a freight train having run off the track they were delayed three hours. They were accompanied by Mayor Bishop, Judge Stone, Jas. Sibley and the rest of the chamber of commerce, John Porrence and rest of city council, Rufus King, president of the school board, and P. B. Bowler, who met the train at Cincinnati and tendered the hospitalities of the city to the guests. In consequence of the lateness of the hour but few persons were at the depot when the train arrived. Lord Renfrew and party took carriages and proceeded to the Burnett House, where they occupy apartments on the 2d floor of the south-eastern wing.

The Prince will leave the Burnett house at 11 o'clock and escorted by the mayor and other members of the committee will go to the depot and take the train for Chicago. This afternoon there will be a great display of the whole fire department on 6th street. Tonight the Prince attends the ball at Pike's opera house.

New York, Sept. 29.  
The steamship Kangaroo for Liverpool took 200 passengers and \$117,000 in specie. The Bremen for Southampton took 150 passengers and \$500,000 in specie.

Southwick Junction, Sept. 29.  
The railroad bridge over the Satonic falls river on the Great Falls and Conway road fell this A. M., while a train was passing over it. The engine and 4 platform cars fell with the bridge. The brakeman pulled the engine off the bridge, and being in a piece of one of the bridge's side, larger than a man's head. On another occasion, two sharks which had been caught actually towed the ship several miles to the leeward, though she had both her anchors down at the time. These fins, which the shark has been in search of, are eaten by the Chinese, with whom they constitute a favorite delicacy.
